

2010 Registration Information

Florida Society of Anesthesiologists

FSA 2010 Annual Meeting

June 25-27, 2010 • The Breakers Resort & Spa • Palm Beach, FL

2010 New Features:

Increased CME—Earn up to 23.0
Category 1 CME credits! • Renowned Lecturers •
Discounts at The Breakers for FSA guests only!

A photograph of a medical team in a hospital setting. A male patient is lying in a hospital bed, smiling broadly. He is wearing a white hospital gown. Four medical professionals are gathered around him: a female nurse in pink scrubs on the left, a male surgeon in green scrubs and a cap behind her, a female doctor in a white lab coat to the left of the patient, and a male doctor in a white lab coat on the right. They are all smiling and appear to be in a positive, collaborative interaction. The background shows a bright hospital room with large windows.

**In Celebration of
Patient Safety**

Network with your fellow Anesthesiologists • Learn about new trends and practices
Meet vendors and suppliers at the largest anesthesia tradeshow in Florida
Enjoy the beauty of Palm Beach • Earn valuable continuing education credits!

FSA 2010 Annual Meeting

June 25-27, 2010 • The Breakers Resort & Spa • Palm Beach, FL

Continuing Medical Education Information

MOCA with ABA Statement: FSA members who provide us with their ABA number will automatically have their credits earned at the FSA annual meeting forwarded to the ABA for the MOCA requirement. It is each attendee's responsibility to ensure that ABA posts the information to your ABA file.

Guide to Claiming CME Credit: Each attendee is responsible for signing in on the designated sign-in sheets in order to claim maximum CME credit. Attendees are ethically bound to claim only the credit for the education they physically attended. Sign-in sheets will not be available after the conclusion of the meeting.

Joint Sponsorship Statement: The Florida Pediatric Society designates this educational activity for a **maximum of 23.0 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. The Florida Pediatric Society is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Florida Pediatric Society and the Florida Society of Anesthesiologists. This educational activity is awarded a **maximum of 23.0 Category 1 Credits**[™] toward the AMA Physician's Recognition Award. Each physician could only claim credit for time that he/she spent in the activity.

Schedule of Events

Friday, June 25

7:00 a.m. – 5:30 p.m. **Registration Open**

Registration will close promptly at 5:30 p.m. to allow staff to prepare our event space for the Welcome Reception in the exhibit hall at 6:30 p.m. Attendees should plan accordingly and pick up their registration packets and event tickets and guest tickets well in advance of 5:30 p.m.

7:30 – 8:00 a.m.

Continental Breakfast
Sponsorship Available!

Registered attendees, exhibitors and sponsors only. Guest fees do not include this event. Thank you to our attendees for refraining from taking food outside the exhibit hall to their guests.

8:00 a.m. – 8:30 p.m.

Posters Displayed in Exhibit Hall

Please note: In order to receive CME credit for the Interesting Cases and Abstract posters, attendees and presenters must sign in at the designated poster sessions as noted in the meeting schedule (i.e., "Group A Poster Session" on Friday at 9:30-10:00a.m.). Sign-in sheets will be made available at a designated table near the registration check-in desk. Attendees must sign in during each poster session time in order to receive maximum credit.

8:00 – 8:30 a.m.

Team Training and Malpractice Part I
(.5 CME unit)

Speaker:

David Birnbach, MD, MPH, University of Miami

Objectives:

This course will be divided into two half-hour lectures and will review bad outcomes in OB that were related to poor communication and will show methods to improve communication skills and to improve patient safety. Simulated encounters will be shown to demonstrate principles of good and bad teamwork and communication in the OB suite. At the

conclusion of the course, the participants will be able to: 1) understand the importance of teamwork on leadership & development; 2) understand the role of simulation in learning team skills; 3) choose methods to improve communication at their institution; 4) Identify areas in obstetrics where poor communication can lead to bad outcomes.

Disclosure:

Nothing to disclose.

8:30 – 9:00 a.m.

Team Training and Malpractice Part II
(.5 CME unit)

Speaker:

David Birnbach, MD, MPH, University of Miami

Objectives:

This course will be divided into two half-hour lectures and will review bad outcomes in OB that were related to poor communication and will show methods to improve communication skills and to improve patient safety. Simulated encounters will be shown to demonstrate principles of good and bad teamwork and communication in the OB suite. At the conclusion of the course, the participants will be able to: 1) understand the importance of teamwork on leadership & development; 2) understand the role of simulation in learning team skills; 3) choose methods to improve communication at their institution; 4) Identify areas in obstetrics where poor communication can lead to bad outcomes.

Disclosure:

Nothing to disclose.

9:00 – 9:30 a.m.

Wellness: Keeping Ourselves Safe First
(.5 CME unit)

Speaker:

Brian Burnbaum, MD, Cleveland Clinic Florida

Objectives:

This course covers the basic concepts of wellness with a special focus on diet and exercise. At the conclusion of the course, the participants will be able to: 1) identify steps they can take to improve their health; 2) describe the current American Heart Association / American College of Sports Medicine guidelines for

	exercise; 3) recognize sound diet and exercise principles as well as some myths and fallacies.		
	<i>Disclosure:</i> Nothing to disclose.		<i>Objectives:</i> This course will provide participants with an update on office-based anesthesia in Florida, to include recent and pending changes to legislative rules, reports of adverse incidents, and what can be done to increase patient safety in Florida. The course will also review ASA's resources for anesthesiologists wishing to start their own office-based anesthesia practice. At the conclusion of the course, the participants will be able to: 1) understand what the Florida Board of Medicine is doing to regulate office-based anesthesia; 2) describe what types of cases are being done in Florida office-based anesthesia practices; 3) explain the regulations one needs to be aware of when practicing office-based anesthesia in Florida.
9:30 – 10:00 a.m.	Break with Exhibitors <i>Sponsorship Available!</i>		
9:30 – 10:00 a.m.	Group A Poster Session – Abstracts & Interesting Cases (.5 CME unit) <i>Don't forget to sign in for CME credits.</i>		
	<i>Moderators:</i> Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants		
	<i>Objectives:</i> This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.		
	<i>Disclosure:</i> Nothing to disclose: Tom Fuhrman, MD; Sherman Turnage, MD		
10:00 – 10:30 a.m.	Bringing the ICU into the OR (.5 CME unit)		
	<i>Speaker:</i> Chris Giordano, MD, University of Florida		
	<i>Objectives:</i> This course covers the risks of ICU transport and strategies for transporting mechanically ventilated patients. At the conclusion of the course, the participants will be able to: 1) recognize the risks of ICU transport; 2) integrate a plan for transporting mechanically ventilated patients; 3) eliminate unnecessary items included during transport.		
	<i>Disclosure:</i> Nothing to disclose.		
10:30 – 11:00 a.m.	Everything You Wanted to Know about Geriatric Anesthesiology but were too Afraid to Ask (.5 CME unit)		
	<i>Speaker:</i> Michael Lewis, MD, University of Miami		
	<i>Objectives:</i> This course will review the demographics of the aging population as it is applicable to health care. Differences between the younger and older population will be discussed. An update in the latest changes in perioperative approach to the elderly surgical patient will be described. At the conclusion of the course, the participants will be able to: 1) understand why changes in the US population's age demographics are important for health care providers; 2) describe physiological and pharmacological differences between younger and older adults; 3) describe the latest developments in perioperative care of the elderly.		
	<i>Disclosure:</i> Nothing to disclose.		
11:00 – 11:30 a.m.	Office-Based Anesthesia Update: Everything You Need to Know (.5 CME unit)		
	<i>Speaker:</i> Hector Vila, Jr., MD, University of South Florida		
		11:30 a.m. –12:00 p.m.	J. Gerard Converse Memorial Lecture: American Society of Anesthesiologists (ASA) Update (.5 CME unit)
			<i>Speaker:</i> Jerry Cohen, MD, University of Florida
			<i>Objectives:</i> This course covers a review of the various ASA initiatives to help promote safety for our patients and increase the effectiveness of the specialty of anesthesiology. Topics include ASA member service improvements, educational opportunities for members, legislative affairs, advocacy, public relations, the Anesthesia Quality Institute, and accreditation issues. At the conclusion of the course, the participants will be able to: 1) list the key issues challenging today's practice of the medical specialty of anesthesiology; 2) explain the relationship of ASA's strategic plan to its mission; 3) Understand ASA's governance structure; 4) employ strategies to promote better regulation & legislation related to anesthesiology.
			<i>Disclosure:</i> Nothing to disclose.
		12:00 – 12:30 p.m.	ASA Washington Advocacy Update (.5 CME unit)
			<i>Speaker:</i> Harvey "Chip" Amoe, III, JD, MPA, Assistant Director for Federal Affairs, American Society of Anesthesiologists
			<i>Objectives:</i> This course will provide participants with an overview of the federal legislative and regulatory activities that are occurring in Washington, DC; how those activities may impact the practice of anesthesiology; what actions the ASA is taking to influence the outcome of those activities; and how practicing anesthesiologists can participate. At the conclusion of the course, the participants will be able to: 1) identify several federal regulatory initiatives that will impact the practice of anesthesiology; 2) understand how these initiatives will impact their practice and the specialty when and if enacted; 3) explain how they can more actively participate in the process to help shape the outcome of these initiatives.
			<i>Disclosure:</i> Nothing to disclose.

Schedule of Events, continued

12:30 – 1:30 p.m. **Buffet Lunch with Exhibitors**
Sponsorship Available!

Registered attendees, exhibitors and sponsors only. Guest fees do not include this event. Thank you to our attendees for refraining from taking food outside the exhibit hall to their guests.

12:30 – 1:30 p.m. **Group A Poster Session – Abstracts & Interesting Cases** (1.0 CME unit)
Don't forget to sign in for CME credits.

Moderators: Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants

Objectives: This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.

Disclosure: Nothing to disclose: Tom Fuhrman, MD; Sherman Turnage, MD

1:30 – 3:30 p.m. **Kids' Olympiad** (Ages 7-16)

No charge for registered child guests.

1:30 – 3:30 p.m. **Kids' Coloring Contest** (Ages 2-7)

No charge for registered child guests.

CONCURRENT SESSIONS (1:30 – 3:30 p.m.)

1:30 – 2:30 p.m. **Airway Workshop I**
(up to 1.0 CME unit for both workshops)

Faculty Coordinator: Devanand Mangar, MD, Tampa General Hospital

Proctors: Eric Harris, MD, University of Miami; A. Joseph Layon, MD, University of Florida; Leo Rodriguez, MD, Surgery Center of Aventura; Jonathan Cohen, MD, University of South Florida; Enrico Camporesi, MD, University of South Florida; Eugene Fu, MD, University of Miami

Objectives: Upon completion of the educational activity participants should be able to: 1) Identify patients at risk for failed intubation and analyze the ASA difficult airway algorithm and implement the alternative techniques of fiber optic intubation, LMA intubation, Wu-Scope intubation, Glide-scope intubation and trans-tracheal jet ventilation; 2) During an awake procedure, identify and utilize topical anesthetic agents and nerve block techniques; 3) Demonstrate the appropriate use of supra-glottic airway devices, intubation stylets, fiber-optic endoscopes and video-laryngoscopes individually and the combination of techniques; 4) Review mass casualty scenario of emergency management of airways in a contaminated environment (toxic, radioactive, or biological

toxin exposure) requiring the provider to afford personal protection.

Disclosures: Nothing to disclose: Devanand Mangar, MD; Eric Harris, MD; A. Joseph Layon, MD; Leo Rodriguez, MD; Jonathan Cohen, MD; Enrico Camporesi, MD; Eugene Fu, MD

1:30 – 2:30 p.m. **Ultrasound Workshop – Upper Extremity**
(1.0 CME unit)

Coordinator: Beth Ladlie, MD, Mayo Clinic Jacksonville

Proctors: Howard Palte, MD, University of Miami; Juan Botero, MD, Cleveland Clinic Florida; Jeffrey Frohock, MD, University of Miami; Steven Clendenen, Mayo Clinic Jacksonville; Richard Silverman, MD, University of Miami; Jose Soberon, MD, Mayo Clinic Jacksonville; Chris Robards, MD, Mayo Clinic Jacksonville

Objectives: This course covers hands-on experience with ultrasound probes. Live models will be used to demonstrate sonoanatomy of common peripheral nerve blocks. At the conclusion of the course, the participants will be able to: 1) Identify nerve tissue in sonographic images; 2) Become familiarized with features on the ultrasound machine which enhance the image; 3) Learn handling techniques for the ultrasound probe as well as block performing techniques.

Disclosure: Nothing to disclose: Beth Ladlie, MD; Jose R. Soberon, MD; Juan Botero, MD; Christopher Robards, MD; Howard Palte, MD; Jeffrey Frohock, MD; Richard Silverman, MD discloses: Board Stiff, Inc. – Salary, Honorarium, Dividends. Steven Clendenen, MD: Medtronic – Funds for Research Grant, Investigator.

2:30 – 3:30 p.m. **Airway Workshop II**
(repeat of Airway Workshop I – up to 1.0 CME unit for both workshops)

Faculty Coordinator: Devanand Mangar, MD, Tampa General Hospital

Proctors: Eric Harris, MD, University of Miami; A. Joseph Layon, MD, University of Florida; Leo Rodriguez, MD, Surgery Center of Aventura; Jonathan Cohen, MD, University of South Florida; Enrico Camporesi, MD, University of South Florida; Eugene Fu, MD, University of Miami

Objectives: Upon completion of the educational activity participants should be able to: 1) Identify patients at risk for failed intubation and analyze the ASA difficult airway algorithm and implement the alternative techniques of fiber optic intubation, LMA intubation, Wu-Scope intubation, Glide-scope intubation and trans-tracheal jet ventilation; 2) During an awake procedure, identify and utilize topical anesthetic agents and nerve block techniques; 3) Demonstrate the appropriate use of supra-glottic airway devices, intubation stylets, fiber-optic endoscopes and video-laryngoscopes individually and the combination of techniques; 4) Review mass casualty scenario of emergency management of airways in a contaminated environment (toxic, radioactive, or biological toxin exposure) requiring the provider to afford personal protection.

Disclosures: Nothing to disclose: Devanand Mangar, MD; Eric Harris, MD; A. Joseph Layon, MD; Leo Rodriguez, MD; Jonathan Cohen, MD; Enrico Camporesi, MD; Eugene Fu, MD

2:30 – 3:30 p.m.	<p>Ultrasound Workshop – Lower Extremity (1.0 CME unit)</p> <p><i>Coordinator:</i> Beth Ladlie, MD, Mayo Clinic Jacksonville</p> <p><i>Proctors:</i> Howard Palte, MD, University of Miami; Juan Botero, MD, Cleveland Clinic Florida; Jeffrey Frohock, MD, University of Miami; Steven Clendenen, Mayo Clinic Jacksonville; Richard Silverman, MD, University of Miami; Jose Soberon, MD, Mayo Clinic Jacksonville; Chris Robards, MD, Mayo Clinic Jacksonville</p> <p><i>Objectives:</i> This course covers hands-on experience with ultrasound probes. Harris, MD, Johns Hopkins Hospital</p> <p><i>Objectives:</i> This course covers the structure and function of federal and state legislative bodies, the bill-making process, various health policy issues that are before legislatures, and how anesthesiologists can effectively advocate for</p>

our patients. At the conclusion of the course, the participants will be able to: 1) differentiate between federal and state legislatures and which health policy issues they cover; 2) list 6 areas of health policy of interest to anesthesiologists; 3) to be effective advocates for their patients to the legislatures.

Disclosure:

Nothing to disclose.

6:30 - 9:00 pm

Welcome Reception in Exhibit Hall
Sponsorship Available!

Start your Breaker's experience by joining your friends, colleagues, and vendor supporters in the plush Breakers' ballroom filled with premium beverages, classic hors d'oeuvres and healthy food options.

6:30 – 8:30 p.m.

Group B Poster Session – Abstracts & Interesting Cases (2.0 CME units)
Don't forget to sign in for CME credits.

Moderators:

Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants

Objectives:

This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.

Saturday, June 26

7:00 a.m. – 5:00 p.m.

Registration Desk Open

7:00 – 8:00 a.m.

Breakfast Lecture on Prefilled Syringes
(CME pending approval)
Direct Commercial Support furnished by: PharMEDium, LLC

Speaker:

Orin Guidry, MD, Medical University of South Carolina and Christopher Fortier, PharmD, South Carolina College of Pharmacy, MUSC Campus

Objectives:

Objectives will be furnished in the on-site program.

Disclosure:

Orin Guidry, MD: PharMEDium, LLC – Honorarium – Speaking; Christopher Fortier, PharmD: PharMEDium, LLC – Grant and Honorarium – Education and Speaking

Schedule of Events, continued

8:00 a.m. – 4:00 p.m. **Posters Displayed in Exhibit Hall**
Please note: In order to receive CME credit for the Interesting Cases and Abstract posters, attendees and presenters must sign in at the designated poster sessions as noted in the meeting schedule (i.e., “Group C Poster Session” on Saturday at 9:30-10:00a.m.). Sign-in sheets will be made available at a designated table near the registration check-in desk. Attendees must sign in during each poster display time in order to receive maximum credit.

8:00 – 8:30 a.m. **Anesthesia-related Cardiac Arrests in Pediatrics – Where Are We Now?** (.5 CME unit)
Speaker: Linda Mason, MD, Loma Linda University
Objectives: This course covers the causes and prevention of cardiac arrest in pediatric patients. At the conclusion of the course, the participants will be able to: 1) understand the changing causes of anesthesia-related cardiac arrest over the last 20 years; 2) Be updated on current etiologies of anesthesia-related cardiac arrest in pediatric patients; 3) Learn prevention strategies for anesthesia-related cardiac arrest.
Disclosure: Nothing to disclose.

8:30 – 9:00 a.m. **Patient Safety Begins with a Secure Airway** (.5 CME unit)
Speaker: Robert Johnstone, MD, West Virginia University Hospital
Objectives: This course covers concepts of airway management, a review of the difficult airway algorithm, and an update on new airway devices and techniques. At the conclusion of the course, the participants will be able to: 1) Describe the difficult airway algorithm; 2) Locate the “laryngospasm notch”; 3) Understand new airway management devices.
Disclosure: Nothing to disclose.

9:00 – 9:30 a.m. **Quality: Why Now? The Michigan Experience** (.5 CME unit)
Speaker: James Grant, MD, Beaumont Hospital
Objectives: This course covers the development of many quality initiatives throughout Michigan including collaborative relationships with the hospital organizations and medical societies and the reasons for developing an effective quality measurement program. At the conclusion of the course, the participants will be able to: 1) Understand the needs for quality programs; 2) See results of quality initiatives; 3) Organize quality initiatives throughout anesthesia departments.
Disclosure: Nothing to disclose.

9:30 – 10:00 a.m. **Break with Exhibitors**
Sponsorship Available!

9:30 – 10:00 a.m. **Group C Poster Session – Abstracts & Interesting Cases** (.5 CME unit)
Don't forget to sign in for CME credits.
Moderators: Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants
Objectives: This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.
Disclosure: Nothing to disclose: Tom Fuhrman, MD; Sherman Turnage, MD

10:00 – 10:30 a.m. **Long-term Perioperative Outcomes: Triple Low, an Ominous Predictor of Mortality** (.5 CME unit)
Speaker: Daniel Sessler, MD, Cleveland Clinic
Objectives: This course will provide participants with an understanding of Triple Low. At the conclusion of the course, the participants will understand: 1) the interactions among mean arterial pressure (MAP), minimum alveolar concentration (MAC) and Bispectral Index (BIS); 2) the effect of Triple Low conditions on mortality; 3) the potential for vasopressor intervention to ameliorate adverse outcomes otherwise associated with Triple Low conditions.
Disclosure: Aspect Medical - Grant for Research Study to Cleveland Clinic; Arizant and other thermoregulator companies – Grant for Research Study to Cleveland Clinic.

10:30 – 11:00 a.m. **Thermoregulation and Heat Balance** (.5 CME unit)
Speaker: Daniel Sessler, MD, Cleveland Clinic
Objectives: This course will provide participants with an understanding of thermoregulation and heat balance. At the conclusion of the course, the participants will understand: 1) temperature monitoring; 2) Normal thermoregulation; 3) the effects of neuraxial and general anesthesia on thermoregulation; 4) Perioperative heat balance; 5) Hypothermia-induced complications; 6) strategies for meeting the new SCIP and PQRI measures.
Disclosure: Aspect Medical - Grant for Research Study to Cleveland Clinic; Arizant and other thermoregulator companies – Grant for Research Study to Cleveland Clinic.

11:00 – 11:30 a.m. **Operating Room Fires** (.5 CME unit)
Speaker: *Orin Guidry, MD, Medical College of South Carolina*
Objectives: This course covers the incidence of OR fires, the etiology of those fires, the role of oxygen and an oxidant, anesthesia plans to minimize the risk of fire and developing a plan to deal with fires. At the conclusion of the course, the participants will be able to: 1) appreciate the risk that fires are to our patients; 2) understand the elements of an OR fire and the key role of oxygen; 3) plan an anesthetic to minimize the risk of fire; 4) protect their patients and themselves in the event of fire.
Disclosure: Nothing to disclose.

11:30 a.m. –12:30 p.m. **Political Guest TBA**
 A special political guest may join FSA at this time. More information will be announced as it becomes available.

12:30 – 1:30 p.m. **Buffet Lunch with Exhibitors**
Sponsorship Available!
 Registered attendees, exhibitors and sponsors only. Guest fees do not include this event. Thank you to our attendees for refraining from taking food outside the exhibit hall to their guests.

12:30 – 1:30 p.m. **Group C Poster Session – Abstracts & Interesting Cases** (1.0 CME unit)
Don't forget to sign in for CME credits.
Moderators: *Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants*
Objectives: This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.
Disclosure: Nothing to disclose: Tom Fuhrman, MD; Sherman Turnage, MD

CONCURRENT SESSIONS (1:30 – 3:30 p.m.)

1:30 – 2:30 p.m. **Pro/Con: Intraoperative Awareness Monitoring** (1.0 CME unit)
Speakers: *Nikolaus Gravenstein, MD & Christoph Seubert, MD*
Objectives: This course covers awareness during anesthesia. Avoiding awareness during anesthesia is a patient and anesthesia provider goal. Society expects achieving

this goal should be 100% successful. The pro and con discussion will review literature, techniques and arguments in favor of vs. against using newer technologies vs. traditional to achieve this goal and accommodating vs. avoiding the associated expense. At the conclusion of the course, the participants will be able to: 1) understand awareness monitoring technology; 2) understand why awareness monitoring is a topic of interest; 3) understand techniques to minimize likelihood of awareness.

Disclosure: Nikolaus Gravenstein, MD: Nothing to disclose. Christoph N. Seubert, MD: Aspect – Equipment for NASA grant; GE – Equipment for NASA grant; Physiometrix – Equipment for NASA grant.

1:30 – 2:30 p.m. **Pro/Con: Ultrasound for Nerve Blocks** (1.0 CME unit)
Speakers: *Ralf E. Gebhard, MD & Steven Clendenen, MD*

Objectives: This course covers a discussion and review of the literature regarding the effect of ultrasound on the incidence of nerve block complications and how to apply ultrasound to the practice of regional anesthesia. At the conclusion of the course, the participants will be able to: 1) discuss how ultrasound may or may not reduce complications; 2) explain potential pitfalls of ultrasound techniques; 3) review the current literature regarding the incidence of nerve block complications; 4) review the current use of ultrasound for regional anesthesia; 5) review current controversies of ultrasound imaging with regional anesthesia; 6) explore the expanding use of ultrasound technology with regional anesthesia.

Disclosure: Steven Clendenen, MD: Medtronic – Funds for Research Grant, Investigator. Ralf E. Gebhard, MD: Merck – Sponsored Research, Principal Investigator; B. Braun – Consulting Fees, Consultant; Ortho McNeil – Sponsored Research, Principal Investigator.

2:30 – 3:30 p.m. **Pro/Con: Nitrous Oxide in Current Anesthesia Practice** (1.0 CME unit)
Speakers: *Fred Furgang, MD & Carlos Mijares, MD*

Objectives: This course covers a discussion on the benefits and rationale for use of nitrous oxide both as an analgesic, as well as a complimentary anesthetic. At the conclusion of the course, the participants will be able to: 1) utilize nitrous oxide as an effective analgesic in MAC anesthetics; 2) appreciate the benefits to be gained from the use of nitrous oxide ; 3) Describe the quality initiatives that are currently underway within ASA, Congress and the administration.

Disclosure: Fred Furgang, MD: Nothing to disclose. Carlos Mijares, MD: Nothing to disclose.

Schedule of Events, continued

2:30 – 3:30 p.m.

PBLD: Managing Safety for the High-Risk Parturient (1.0 CME unit)

Speakers: Enrico Camporesi, MD

Objectives: This course covers high-risk parturients, including patients with limited or absent prenatal care, who are exposed to hemorrhagic risks, such as placenta previa, placenta accrete and similar abnormalities. A team-based approach to rapidly diagnose the threat, use of ultrasounds, and invasive radiology techniques to document the anatomical alterations, stratification of risk by referral to tertiary centers, collaborative advanced protocols comprising endovascular occlusive balloon insertion before C-section. At the conclusion of the course, the participants will be able to: 1) illustrate our recently-experienced large number of referrals for placenta accrete, and our critical analysis of the published results, highlighting the multidisciplinary approach to surgery; 2) apply the team approach to diagnose, and obtain best anatomical evidence of the possible threat due to bleeding and preparation for resuscitation in a controlled manner; 3) review the evidence from the literature on the use of intra-operative balloon occlusion to manage sudden blood loss in these C-sections and C-section/hysterectomies.

Disclosure: Nothing to disclose.

3:30 – 4:00 p.m.

Break with Exhibitors

3:30 – 4:00 p.m.

Group C Poster Session – Abstracts & Interesting Cases (1.0 CME unit) *8 posters shown during break in exhibit hall*

Moderators: Tom Fuhrman, MD, University of Miami; Sherman Turnage, MD, Coastal Anesthesiology Consultants

Objectives: This course covers: posters of interesting cases from operating rooms, OB suites and/or ICUs; abstract posters from residents and practicing anesthesiologists covering a wide variety of challenging clinical cases in general anesthesiology practice. At the conclusion of the course, the participants will be able to: 1) identify pathophysiology of interesting cases; 2) present their cases to their peers; 3) discuss and answer questions regarding their posters; 4) better identify common challenges in clinical anesthesia; 5) discuss available methods of responding to clinical anesthesia challenges with poster presenters; 6) gain an understanding of using new technology such as ultrasound and fiber optic instruments to employ in challenging circumstances.

Disclosure: Nothing to disclose: Tom Fuhrman, MD; Sherman Turnage, MD

4:00 – 5:00 p.m.

Anesthesia Resident Jeopardy Competition (1.0 CME unit) **Direct Commercial Support furnished by: Anesthetix**

Join us for this exciting annual event featuring Anesthesia Resident teams from Florida universities.

Moderator: Albert J. Varon, MD, MHPE, University of Miami

Objectives: This course covers information needed to pass the written board examination for the American Board of Anesthesiology. At the conclusion of the course, the participants will be able to: 1) Identify the latest information for the ABA written board of recertification examination as reviewed in a competitive team setting; 2) Review topics based on poorer national performance on questions included in past the board of recertification exams; 3) Be more aware of knowledge gaps the participant has which may facilitate and focus subsequent studying.

Disclosure: Nothing to disclose.

5:00 p.m. – 6:00 p.m.

Resident Happy Hour (No CME) **Sponsored by: Sheridan Healthcare**

6:30 p.m. – 9:00 p.m.

Kids' Hospitality Suite **Sponsored by: Nova Southeastern University**

We'll welcome our youngest registered guests at our Kids' Hospitality Suite adjacent to the Family Dinner & Dance ballroom. The Kids' Suite will be filled with various activities to keep them active and entertained for hours. Kids are also encouraged to join their parents in the Family Dinner & Dance for our buffet and live entertainment.

6:30 p.m. – 10:00 p.m.

Family Dinner/Dance– Live music in 2010! **Entertainment Sponsored by: Nova Southeastern University**

Join your friends and colleagues for a relaxing night of adult refreshments, excellent buffet-style food and great music – all in the historic oceanfront Venetian ballroom. New in 2010 – A live band will keep your family entertained throughout the evening with a great mix of fun, family friendly music! All registered attendees & guests are encouraged to attend.

Sunday, June 27

8:00 – 9:30 a.m.

Family Breakfast *Sponsorship Available!*

Enjoy a full breakfast buffet with a great view of the Atlantic Ocean. Healthy and hearty breakfast foods with various dietary options will be available.

9:00 – concludes by 12:00 p.m

Annual Business Meeting & Leadership Awards presentation

FSA members are encouraged to gather for the Annual Business Meeting for society business and annual leadership elections. Leadership awards will also be presented.

Thank you to our 2010 Commercial Supporters & Sponsors!*

About the FSA

The Florida Society of Anesthesiologists is an educational, research and scientific association of physicians organized to raise and maintain the standards of the medical practice of anesthesiology and improve the care of their patients.

Since its founding in 1948, the Society's achievements have made it an important voice in Florida Medicine and the foremost advocate for all patients who require anesthesia or relief from pain.

Join FSA Today!

Membership categories are available for Physicians, Residents, CRNAs, AAs, Research Scientists, Physicians working for the VA system and Military Physicians. Contact Katie Fitzgerald at 800/400-3211 or katie.fitzgerald@fsahq.org. Visit www.fsahq.org for more membership information.

Hotel Information

The 2010 FSA Annual Meeting will be held at The Breakers in Palm Beach.

The Breakers • Palm Beach, Florida

Tel: 888/273-2537

Room rate is \$199 single/double
Refer to “Florida Society of Anesthesiologists” room block.

As a courtesy to attendees, exhibitors, and sponsors, the FSA has negotiated a block of rooms to be offered at the special rate of \$199 single/double per night. Reservations at this rate are on a first-come, first-serve basis. They are **available until June 1, 2010** or until the block is full, whichever applies first.

Back by Popular Demand:

Exclusive markdowns on the Breakers’ most popular experiences and services!

- 15% off all attendees in our restaurants for individual dining. (Excludes room service, L’Éscalier restaurant and Breakers News & Gourmet.)
- 10% off all Spa Treatments for our guests
- 10% off our bungalow rentals

Alternate Hotel Accommodations

Four Seasons • Palm Beach, Florida

An “overflow” room block has been reserved at the Four Seasons Palm Beach. Rooms are available at a rate of \$199.00 plus tax single/double per night, until June 3, 2010 or the block is full, whichever applies first. Please call 800/432-2335 and mention the “Florida Society of Anesthesiologists.”

2010 FSA Annual Meeting • June 25-27, 2010 • The Breakers • Palm Beach, FL
