ABOUT THE FSA

The Florida Society of Anesthesiologists is an educational, research and scientific association of physicians organized to elevate and to maintain the standards of the medical practice of anesthesiology and to improve the care of their patients. Since its founding in 1948, the Society's achievements have made it an important voice in Florida medicine and the foremost advocate for all patients who require anesthesia or relief from pain. For more information about the society, please visit www.fsahq.org.

The Breakers, Palm Beach, Florida

Welcome to the Annual Meeting of the Florida Society of Anesthesiologists!

2016 marks the 14th year that our annual meeting has been held here at the Breakers Palm Beach Hotel and Resort, and during your stay I invite you to not only immerse yourself in what I know will be an informative and valuable meeting, but also to enjoy this beautiful locale and to take advantage of the amenities this grand hotel has to offer.

On behalf of the Board of Directors, I would like to thank you for being a member of the FSA and ASA. Our profession has made remarkable strides in safety and it is through the participation and support of physicians like you that we are able to continue our work of advocacy for our patients and specialty. The theme of the upcoming weekend reflects a key reason of our success: Engagement. As physician anesthesiologists we engage daily with our colleagues, our clients and our organizations to ensure the highest quality of patient care and patient safety, and this meeting will offer several opportunities to continue our education, discuss the future of our profession, and engage in valuable dialogue with colleagues from around the state and the nation. Sincere gratitude go to our Program Co-Chairs, Dr. Chris Giordano and Dr. Leo Rodriguez, who with their committee have put together a great program, and have for the first time this year made available MOCA accreditation in addition to CME credits. As you leaf through this program you'll see the MOCA logo on several of the scheduled sessions. Staying current with these requirements is paramount, and we are very pleased to be able to offer the accreditation this year. Other highlights for the meeting include a regional anesthesia workshop, a session discussing to women and leadership in anesthesia, and a return visit from anesthesiologist and US Congressman Andy Harris (R, Maryland) to give his overview on "What's Affecting the Practice of Medicine."

I encourage all members to attend the FSA Annual Business Meeting on Sunday morning to learn more about what the FSA is doing for you and your patients, find out about opportunities to get involved, and vote in elections. We will also present the 2016 Distinguished Service Award and the 2016 Presidential Engagement Award.

Find old friends. Make new ones. Introduce yourself to the current leadership and let us know your thoughts about your Society. Attend the sessions and give us ideas for future offerings. Take part in a poster session. Cheer on the residents as they compete in the Resident Jeopardy Competition. We've put together a weekend of great options for you, and housed it in a location primed to help you relax and take it all in.

So again, welcome! And please, Engage!

MEMBERSHIP IN THE FSA

The Florida Society of Anesthesiologists has a membership of over 1800 members, and includes not only practicing anesthesiologists, but also residents, research scientists, anesthesiology assistants, nurse anesthetists, and students. The benefits of membership to the FSA are many, and include:

- A supportive environment for practitioners and students of anesthesiology to present their research and to network with others in the profession;
- Participation in the committees and leadership roles that guide the direction of anesthesiology in Florida;
- Representation – through the FSA Political Action Committee – along with relevant, up-to-the-minute information about current state and federal legislative issues affecting anesthesiology;
- Promoting interactions and facilitating mentorships between students, trainees and senior anesthesiologists;
- An informative quarterly newsletter, *FSA Today*.

As a state component of the American Society of Anesthesiologists, FSA members must also belong to the ASA. The FSA uses the ASA membership application for state membership. There are several available categories for membership, and you can find your appropriate category on the FSA website at www.fsahq.org/join-fsa.

FSAPAC is the political component of the Florida Society of Anesthesiologists. Federal law as well as Florida state law prohibits associations such as FSA from involving themselves in the political process. Only PACs can participate, and FSAPAC strives to play a key role in shaping the policies important to Florida anesthesiologists. Compensation, regulatory issues, the role of non-physician providers in the practice of anesthesiology – these and other vital issues are the focus of FSAPAC, and the committee provides direct contributions to incumbents, challengers and open-seat candidates for office who have proven that they are willing to listen to FSA’s message and share the vision of providing the highest quality anesthesiology care.

To learn more about how to donate to this most worthwhile endeavor, visit the FSA website at www.fsahq.org/donate-to-the-fsa-political-action-committee-pac.

- b. Prevention and Management of Patients with Intraoperative Awareness
- c. The importance of implementing a Smoking Cessation Program to improve Patient Outcomes
- d. Recognition and Management of Cardiac Tamponade
- e. Recognition and Management of Cognitive Errors in Anesthesiology
- f. Perioperative Management of the Patient who suffered Neuro Trauma
- g. Effective use Cognitive Aids to Improve Patient Safety
- h. How to implement the Difficult Airway Algorithm
- i. Implement the APSF Consensus Recommendations for Improving Medication Safety in the Operating Room
- j. Improving quality in Regional Anesthesia by using Ultrasound guidance during a hands on workshop
- k. Prevention principles that decrease the risk of Infection to patients by Anesthesia Providers
- l. Diagnosis and Management of the Bleeding Parturient
- m. Patient safety in the Obstetric Suite
- n. Electrical Safety in the Operating room
- o. Fire safety in the Operating room

TARGET AUDIENCE

This activity is intended for anesthesiologists. Researchers and other health care professionals with an interest in anesthesiology may also participate.

ACCREDITATION AND DESIGNATION STATEMENTS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Anesthesiologists and the Florida Society of Anesthesiologists. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

The American Society of Anesthesiologists designates this live activity for a maximum of **15.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

TO RECEIVE YOUR CME CREDITS

This year's evaluation and CME certificate process is completely electronic. In order to access the course, claim your CME credits, complete the activity evaluation and print your CME certificate, you must login to the ASA Education Center.

MOCA ACCREDITATION STATEMENT 2016

Attend select Educational Sessions to Earn Credit Toward MOCA®.

FSA 2016 offers several opportunities to help fulfill your Maintenance of Certification in Anesthesiology (MOCA®) requirements. Sessions marked with the MOC-PS icon will count toward Part II Patient Safety requirements. Look for the MOC-PS icon to identify designated sessions.

Please note: In order to claim CME credit for MOCA®, attendees are required to attend the entire session and complete the evaluation form when claiming CME credit.

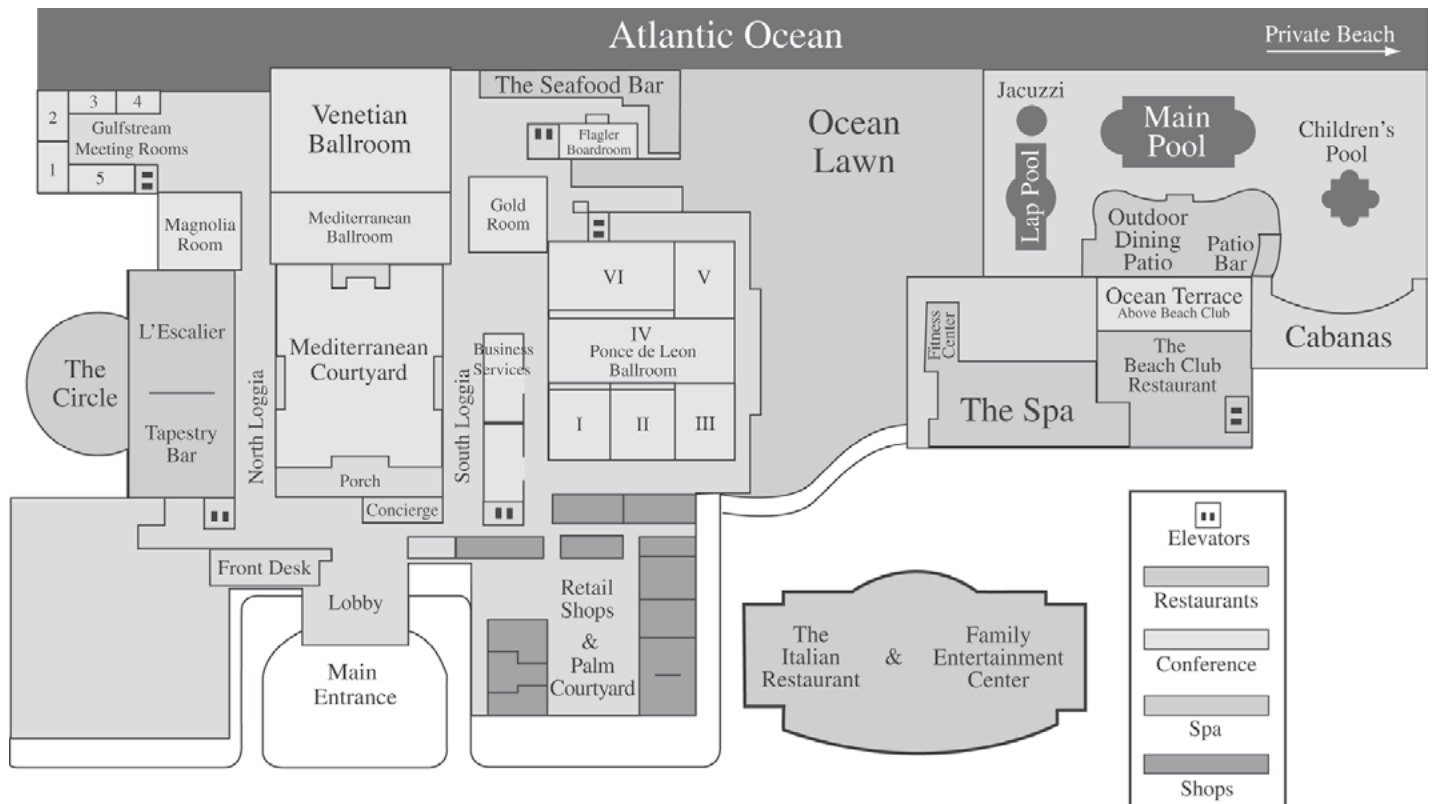

Maintenance of Certification in Anesthesiology Program® and MOCA® are registered certification marks of the American Board of Anesthesiology®.

This activity helps fulfill the CME requirement for Part II of the Maintenance of Certification in Anesthesiology Program (MOCA) of the American Board of Anesthesiology (ABA). Please consult the ABA website, www.theABA.org, for a list of all MOCA requirements.

The American Board of Anesthesiology®, Maintenance of Certification in Anesthesiology Program® (MOCA®) has approved the following "Patient Safety Sessions" (listed below) at the FSA 2016 Annual Meeting.

 The sessions which are approved for MOCA® Certification are noted with this symbol.

Stop by the PAJUNK® booth to see the E-Cath first hand. Place your CPNB with the NEW and improved E-Cath as easy as a single shot, reduce the risk of leakage and dislocation to a minimum; the kit offers increased ultrasound visibility due to the "cornerstone reflectors" technology and Self-Priming system; double layered design of E-Cath and indwelling catheter enables an unhindered flow of anesthetic. E-Cath integrated injection tubing and luer-lock connection replaces the clamping adapter, therefore eliminating an additional step. The soft catheter tip offers more comfort and safety.
