ABOUT THE FSA

The Florida Society of Anesthesiologists is an educational, research and scientific association of physicians organized to elevate and to maintain the standards of the medical practice of anesthesiology and to improve the care of their patients. Since its founding in 1948, the Society's achievements have made it an important voice in Florida medicine and the foremost advocate for all patients who require anesthesia or relief from pain. For more information about the society, please visit www.fsahq.org.

The Breakers, Palm Beach, Florida

Welcome to the Annual Meeting of the Florida Society of Anesthesiologists!

Welcome, colleagues! The FSA Board of Directors and I are thrilled that you're joining us for this exciting and informative Annual Meeting. Our experienced program committee under the expert leadership of Drs. Chris Giordano and Leopoldo Rodriguez have built a weekend for you that is rich with insightful sessions, interesting topics of discussion and entertaining events. And it's all housed in a location that is truly like no other in the state of Florida; 2017 marks the 15th year that FSA holds our Annual meeting at the Breakers here in West Palm Beach, and this beautiful space only serves to enhance what I know will be a great event. We're glad you're here.

Ensuring Patient Safety is our goal and our mission. This weekend we explore ideas and new pathways to achieving that goal, and several sessions present and discuss important technological advances to that end. We'll look at mobile technologies and perioperative informatics, and be sure to join us Saturday morning for a 3-D Virtual Cadaver Demonstration, sponsored by Pacira Pharmaceuticals. Several sessions this year look at innovative ideas in pain management, and we again offer a hands-on Ultrasound Workshop.

Prominent leaders from our colleague societies will also be on hand to share their insights – we welcome Dr. John Dombrowski, ASA Secretary and Dr. Brenda Fahy, ABA Vice President. And we are delighted to welcome back to Florida US Congressman Dr. Andy Harris, who will update us on the current state of healthcare in the US. Important people with important messages – please make it a point to attend their presentations.

With all this great material to absorb, my advice to you is this – immerse yourself. Everywhere you look there will be something interesting to do, to hear, to learn. Attend the sessions, review the great posters that surround the meeting space, visit the exhibit hall and stroll through a truly impressive room full of great ideas and people. Find your friends, make new friends, and don't forget to stop every once in a while and look up – we're in a grand and beautiful space on an inspiring stretch of shoreline. Don't miss that.

Welcome to the 2017 meeting, and thank you for your engagement with the Florida Society of Anesthesiologists.

Steven Gayer,
FSA President

MEMBERSHIP IN THE FSA

The Florida Society of Anesthesiologists has a membership of over 1800 members, and includes not only practicing anesthesiologists, but also residents, research scientists, anesthesiology assistants, nurse anesthetists, and students. The benefits of membership to the FSA are many, and include:

- A supportive environment for practitioners and students of anesthesiology to present their research and to network with others in the profession;
- Participation in the committees and leadership roles that guide the direction of anesthesiology in Florida;
- Representation – through the FSA Political Action Committee – along with relevant, up-to-the-minute information about current state and federal legislative issues affecting anesthesiology;
- Promoting interactions and facilitating mentorships between students, trainees and senior anesthesiologists;

As a state component of the American Society of Anesthesiologists, FSA members must also belong to the ASA. The FSA uses the ASA membership application for state membership. There are several available categories for membership, and you can find your appropriate category on the FSA website at www.fsahq.org/join-fsa.

FSAPAC is the political component of the Florida Society of Anesthesiologists. Federal law as well as Florida state law prohibits associations such as FSA from involving themselves in the political process. Only PACs can participate, and FSAPAC strives to play a key role in shaping the policies important to Florida anesthesiologists. Compensation, regulatory issues, the role of non-physician providers in the practice of anesthesiology – these and other vital issues are the focus of FSAPAC, and the committee provides direct contributions to incumbents, challengers and open-seat candidates for office who have proven that they are willing to listen to FSA's message and share the vision of providing the highest quality anesthesiology care.

To learn more about how to donate to this most worthwhile endeavor, visit the FSA website at www.fsahq.org/donate-fsapac.

Palm Beach, Florida 33480
PHONE: 561-655-6611

MEETING HOURS

Registration Hours

LOCATION:

South Ballroom Foyer

Thursday, June 8, 2017

2:00 pm – 6:00 pm

Friday, June 9, 2017

6:30 am – 6:30 pm

Saturday, June 10, 2017

7:00 am – 4:30 pm

Exhibit Hours

LOCATION:

Ponce de Leon 4-6

Friday, June 9, 2017

9:00 am – 2:00 pm

5:00 pm – 6:30 pm

Saturday, June 10, 2017

10:15 am – 2:00 pm

LEARNING OBJECTIVES

At the conclusion of this activity, participants should be able to:

1. Assess the potential application of emerging issues and advances that affect the practice of anesthesia.
2. Apply contemporary practice management skills and knowledge of regulatory issues to the efficient and safe delivery of patient care.

Through the panels below presented in the program. Detailed topics are covered within each panel and noted throughout the program:

- a. Regional Anesthesia
- b. Enhancing Recovery after Surgery
- c. Geriatric Patient Safety and POCD
- d. Creating a Culture of Safety
- e. Informatics and Technology
- f. Ultrasound Workshop
- g. Wrong Sided Blocks
- h. Large Group Management
- i. Pain Management
- j. Women and Leadership

TARGET AUDIENCE

This activity is intended for anesthesiologists. Researchers and other health care professionals with an interest in anesthesiology may also participate.

ACCREDITATION AND DESIGNATION STATEMENTS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society of Anesthesiologists and the Florida Society of Anesthesiologists. The American Society of Anesthesiologists is accredited by the ACCME to provide continuing medical education for physicians.

The American Society of Anesthesiologists designates this live activity for a maximum of **17.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

TO RECEIVE YOUR CME CREDITS

This year's evaluation and CME certificate process is completely electronic. In order to access the course, claim your CME credits, complete the activity evaluation and print your CME certificate, you must login to the ASA Education Center.

Directions for Claiming CME Credit

Please follow the directions below to complete the evaluation, claim your CME credits or certificates of attendance, and print your certificate:

- Log in with your ASA username and password:
Go to: <https://www.asahq.org/member-center/login?redirUrl=https://education.asahq.org/totara/login/index.php>
- If you haven't accessed the center before, please visit <https://www.asahq.org/member-center/forgot-password> enter your email address and a password will be sent to you.
- Once you have logged on to the ASA Education Center homepage, select "My Enrollments" under the "My Learning" tab at the top.
- You will be able to complete the evaluation and claim CME credits through the education center, or print a certificate of attendance.
- Forgot your password or need help logging in? Enter your email address at the following link: <https://www.asahq.org/member-center/forgot-password>. An email notice with your log in instructions will be sent to you.

If you have any questions, please do not hesitate to contact educationcenter@asahq.org.

JOINT PROVIDERSHIP

This meeting is jointly provided by the American Society of Anesthesiologists and the Florida Society of Anesthesiologists.

The Maintenance of Certification in Anesthesiology Program® logo is a trademark of the American Board of Anesthesiology.

American Society of
Anesthesiologists®

MAINTENANCE OF CERTIFICATION IN
ANESTHESIOLOGY

GENERAL INFORMATION continued

MOCA ACCREDITATION STATEMENT 2017

Attend select Educational Sessions to Earn Credit Toward MOCA®.

FSA 2017 offers several opportunities to help fulfill your Maintenance of Certification in Anesthesiology (MOCA®) requirements. Sessions marked with the MOC-PS icon will count toward Part II Patient Safety requirements. Look for the MOC-PS icon to identify designated sessions. Attendees can claim a maximum of 3 MOCA® credits at this year's Annual Meeting.

Please note: In order to claim CME credit for MOCA®, attendees are required to check in to the session, attend the entire session and complete the evaluation form when claiming CME credit.

Maintenance of Certification in Anesthesiology Program® and MOCA® are registered certification marks of the American Board of Anesthesiology®.

This activity helps fulfill the CME requirement for Part II of the Maintenance of Certification in Anesthesiology Program (MOCA) of the American Board of Anesthesiology (ABA). Please consult the ABA website, www.theABA.org, for a list of all MOCA requirements.

The American Board of Anesthesiology®, Maintenance of Certification in Anesthesiology Program® (MOCA®) has approved the following "Patient Safety Sessions" (listed below) at the FSA 2017 Annual Meeting.

 The sessions which are approved for MOCA® Certification are noted with this symbol.

Rafael V. Miguel, MD	Co-Chair, Committee on Pain Medicine
Chris Giordano, MD	Co-Chair, Program Committee
Leopoldo V. Rodriguez, MD, FAAP	Co-Chair, Program Committee

Christopher Giordano, MD PROGRAM CHAIR

Dr. Chris Giordano was born and raised in Fort Lauderdale, Florida. After graduating from Saint Thomas Aquinas H.S., he attended the University of Florida for undergraduate and University of South Florida for Medical School. He attended the University of Alabama – Birmingham for his Anesthesiology Residency, and returned to the University of Florida for a Liver Transplant fellowship where he continued on and is now Division Chief of Liver Transplant. He is very active in the medical student education as the Anesthesiology and Critical Care clerkship director and course supervisor. In his free time, he enjoys playing golf, tennis, watching sporting events, and spending time with his wife, Tracy, and children, Gigi and Dominic.

Leopoldo Rodriguez, MD, FAAP PROGRAM CO-CHAIR

Dr. Leopoldo Rodriguez graduated from the Universidad Central de Venezuela Medical School and completed his Anesthesiology Residency in Vanderbilt University as Chief Resident taking the advanced Sub-Specialty CA3 Track in Pediatric anesthesia. From 2000 to 2005, he was in Private Practice in Pensacola Florida, dedicating his career to High Risk Pediatric Anesthesia and Adult Minimally Invasive Cardiac Anesthesia. From 2005 to 2008, he served as Cardiac Anesthesiologist, and later, Chief of Anesthesiology at Aventura Hospital and Medical Center. Since 2008 to present, he has been the Medical Director and Chief of Anesthesiology at the Surgery Center of Aventura. He Chairs the Envision Healthcare Physician Services Ambulatory Anesthesia Quality Committee. He is the FSA Treasurer, serves in the Board of Directors of SAMBA and is enrolled in the University of Massachusetts MBA program. In his free time, he enjoys playing tennis and practicing traditional Japanese martial arts of the Bujinkan Dojo.

Rebecca Welch, MD DISTINGUISHED SERVICE AWARD RECIPIENT

Rebecca Welch, MD is a Pediatric Anesthesiologist at Arnold Palmer Hospital in Orlando, Florida. Dr. Welch has been an active member of the FSA for over 25 years. She served on the Executive Committee for several years and, from 2004-2005, she is very proud to have served as the President of the FSA. During her presidency, the FSA was instrumental in helping to pass the legislation that allowed Anesthesiology Assistants to be licensed in the state of Florida. FSA also strongly supported the increased regulation of Office based surgery by the Florida Board of Medicine. Supporting these efforts, along with combating the negative effects of the infamous "Ortiz" decision, which negatively impacted the role of physician supervision in Florida, made her presidential year very active. Professionally, serving as the FSA President was an extremely rewarding and fulfilling experience. Over the years, she has served in many other offices including FSA Central Florida District Director, FSA Treasurer, Secretary and President-Elect, ASA Delegate, ASA Committee on Communication member, the Chair of the FSA Bylaws Committee, Editor of the FSA Today newsletter, and FMA Delegate. Currently, she Chairs the Communications Committee, and has done so for most of the past 20 years. During that time, the FSA has grown, as have the methods of communication at our disposal, making this an ever changing and challenging committee. Dr. Welch also currently serves as the alternate delegate to the Florida Medicare Community Advisory Committee.

Originally from Fort Wayne Indiana, Dr. Welch attended college at the University of Chicago and the University of Chicago, Pritzker School of Medicine. She then completed a Pediatric Residency, Anesthesia Residency and Pediatric Intensive Care Fellowship at the University of Florida, Shands Hospital. There she met and married Jim Welch, MD, who completed his Urology Residency, and Urologic Oncology Fellowship at the University of Florida. He is currently the senior partner of Orlando Urology Associates. They have been married for 31 years and together they have 2 wonderful children – Danny, a third year medical student, and Emily, a first year medical student, both at the University of Florida. GO GATORS! Family has always been the most important part of her life, and she would like to truly and whole-heartedly thank Jim for the love and support, without which this award would not be possible.

For Dr. Welch, the most important mission of the FSA is the constant drive to forward patient safety. Working within the FSA toward that goal has had the benefit of learning how to work with committees, on boards, understand budgets, and has provided creative and educational opportunities. Dr. Welch feels that involvement in the FSA has helped her to understand the legislative, legal and regulatory processes in Florida and nationally. Gaining that understanding through the FSA allows participants to feel not like a helpless bystander as the waves of political intrigue flow around us, with minimal understanding of our profession, our patients, or our training, but rather empowered to help make a difference.

PROGRAM SCHEDULE

FRIDAY, JUNE 9, 2017

7:00 am - 7:30 am	MOCA 2.0® Update Brenda Fahy, MD, MCCM <i>Vice President, American Board of Anesthesiology</i> <i>Professor of Anesthesiology</i> <i>Division Chief, Critical Care Medicine Anesthesiology</i> <i>University of Florida, Gainesville</i> <i>Gainesville, FL</i>	<i>Ponce De Leon 1-3</i>
7:30 am - 8:15 am	REGIONAL ANESTHESIA PANEL MODERATOR: Philip Asmar, MD <i>Asmar Anesthesia Providers, PLLC</i> <i>Pensacola, FL</i> Home TKA Philip Asmar, MD <i>Asmar Anesthesia Providers, PLLC</i> <i>Pensacola, FL</i> Anti-Coagulant Medications and Regional Anesthesia Javier Lopez, MD <i>Chief of Anesthesiology</i> <i>Department of Anesthesiology</i> <i>Kendall Regional Medical Center</i> <i>Miami, FL</i> Enhancing Recovery after Surgery with Regional Anesthesia – The Role of Local Anesthetic Adjuvants Matthew Warrick, MD <i>Assistant Professor</i> <i>Department of Anesthesiology</i> <i>Medical Director, Acute Pain Service</i> <i>Program Director, Regional Anesthesiology and Acute Pain Management Fellowship</i> <i>University of Florida College of Medicine</i> <i>Jacksonville, FL</i> This talk will discuss the importance of providing quality regional anesthesia for patients that lasts beyond discharge from the PACU and into the perioperative recovery period. There are many methods for providing this extensive pain control ranging from placing continuous peripheral nerve catheters to choosing new long lasting formulations of local anesthetics. This talk will discuss the use of local anesthetic adjuvants to extend the duration of action of peripheral nerve blocks after surgery. Learning Objectives: <ol style="list-style-type: none">1. Become familiar with the doses and common agents employed to extend the duration of peripheral nerve blocks.2. Be able to discuss the common risk factors associated with utilizing local anesthetic adjuvants to extend the duration of nerve blocks.3. Be able to evaluate the cost in relation to the increased duration gained by adding adjuvants to local anesthetics to extend the duration of peripheral nerve blocks.	<i>Ponce De Leon 1-3</i>

PROGRAM SCHEDULE continued

FRIDAY, JUNE 9, 2017

8:15 am - 9:00 am

ENHANCING RECOVERY AFTER SURGERY PANEL

Ponce De Leon 1-3

MODERATOR: Chris Giordano, MD
*Associate Professor of Anesthesiology
Division Chief of Liver Transplantation
Director, Anesthesiology/Critical Care Clerkship
University of Florida, Gainesville
Gainesville, FL*

Using Informatics for Peri-op Glucose Control

Mark Rice, MD
*Professor and Chief
Vice Chair of Clinical Affairs
Vanderbilt University Medical Center
Nashville, TN*

In this talk, Mark Rice will discuss the specific perioperative informatics methods Vanderbilt University Medical Center has used for assisting clinicians in glucose management. Specific outcomes from these innovations will be presented.

Learning Objectives:

1. Construct the Building Blocks for an Intraoperative Glucose Management Decision Support System.
2. List the Major Alerts needed for Optimum Intraoperative Glucose Control.
3. Relate the Evidence that Perioperative Decision Support Systems Improve Patient Outcomes.

Re-Evaluating PONV in Abdominal Surgery

Ryan Chadha, MD
*Assistant Professor of Anesthesiology
Department of Anesthesiology and Perioperative Medicine
Mayo Clinic
Jacksonville, FL*

In this lecture, we will be evaluating the current literature regarding PONV in abdominal surgery, and discuss anesthetic techniques and pharmacologic regimens to reduce the incidence of PONV.

Learning Objectives:

1. Review the Current Data on the Incidence of PONV in Abdominal Surgery.
2. Review the Best Agents to use to Prevent PONV Based on Evidence.

 INDICATE SESSIONS ELIGIBLE FOR MOCA "PATIENT SAFETY" RECERTIFICATION

FSA REGISTRANT DISCOUNTS AT "THE BREAKERS"

As a registrant and hotel guest, The Breakers is pleased to extend to FSA registrants the following discounts during your stay.

- 15% Discount on Restaurant Food & Beverage (Discount excludes Room Service, News and Gourmet, HMF and any prevailing special summer promotions.)
- 10% Discount on Spa Treatments
- 10% Discount on Bungalow Rentals

To make a reservation for this these discounts please call 888-273-2537.

PROGRAM SCHEDULE continued

FRIDAY, JUNE 9, 2017

9:00 am - 9:30 am **AM Break** *Ponce De Leon 4-6*

9:00 am - 9:30 am **Poster Session 1** *Ponce De Leon Foyer*
MODERATORS: Thomas Furhman, MD
Chief of Anesthesiology
Bay Pines VA Healthcare System
Bay Pines, FL
William Turnage, MD
Clinical Assistant Professor Anesthesiology
University of Central Florida COM
St. Augustine, FL

9:30 am - 10:30 am **Lecture 1: Grandma has gone Bananas! One Consequence of Surgery and Anesthesia in the Elderly: Post-Operative Cognitive Dysfunction (POCD)**  *Ponce De Leon 1-3*
Michael Lewis, MD
Chair of Anesthesiology
Henry Ford Health System
Detroit, MI

In the older surgical patient, Post-operative cognitive dysfunction (POCD) is ever more being accepted as one of the most frequent neuropsychological consequences of anesthesia. It is characterized as mild cognitive disorder separate to delirium and dementia, and categorized by subtle impairments in memory, concentration and information processing that are often interpreted as 'senior moments'. Its diagnosis requires neuropsychological testing and presently, it isn't labelled as a psychiatric diagnosis. Its occurrence in the immediate postoperative period has been reported as being high. Although it is usually transient some patients may experience long-term dysfunction lasting weeks or months and it may even become permanent. In this talk I will aim to describe POCD, possible underlying mechanisms, and how it differs from other postoperative cognitive syndromes. Potential approaches to both prevention and treatment will be described as well as long-term consequences of its occurrence.

Learning Objectives:

1. Define What is Meant by the Term Post-Operative Cognitive Dysfunction (POCD) and how it is Diagnosed.
2. Discuss Some of the Proposed Mechanisms Underlying POCD.
3. Identify Some Strategies that Could be Utilized in Preventing POCD.
4. Review Some of the Social and Financial Implications of the POCD Diagnosis.

Lecture 2: Principals Underlying the Safe Administration of Anesthesia for Surgery in the Older Patient.

The elderly population (>65 years) is increasing at a rapid pace, and a substantial proportion of these patients go through surgical procedures. This group has a distinctive array of requirements due to the aging process, several which causes them to be especially susceptible to postoperative problems and a protracted recovery. The intent of this lecture is to examine the literature, confirm existing guidelines, and offer a series of suggestions to aid anesthesiologists, safely manage older patients during the perioperative period.

PROGRAM SCHEDULE continued

FRIDAY, JUNE 9, 2017

Learning Objectives:

1. Describe the Demographic Changes Underlying the Rapid Growth of the Elderly Population.
2. Define the Differences Between the Younger and Older Surgical Patients.
3. Understand the Main Causes of Adverse Events in Anesthesia Care of these Patients and Outline possible Strategies to Reduce their Incidence.

10:30 am – 11:00 am **ASA Converse Lecture** *Ponce De Leon 1-3*
John Dombrowski, MD
CEO, The Washington Pain Center
Secretary, American Society of Anesthesiologists
Washington, DC

11:00 am – 12:00 pm **CREATING A CULTURE OF SAFETY PANEL**  *Ponce De Leon 1-3*
MODERATOR & SPEAKER: Zachary Deutch, MD
Assistant Professor
Department of Anesthesiology
Medical Director, Operating Room at UF Health North
University of Florida College of Medicine
Jacksonville, FL

In today's fast pace Surgical Services environment, with continued efforts on Operational Efficiency, we must always remember that Patient Safety is OUR top priority.

Learning Objectives:

1. Understand the Financial Impact of Operational Efficiency.
2. Understand the Role of Metrics such as First Case Delays and Day of Surgery Cancellations has on Surgical Services.
3. Understand that Despite the Emphasis on Metrics and Efficiency, that Patient Safety is still OUR top Priority.

Slow Down While Speeding Up... Increased Push for Efficiency and on Time Start while Maintaining a Culture of Safety

Adam L. Blomberg, MD
Envision Healthcare National Education Director, Anesthesiology Division
Chief of Anesthesiology, Memorial Regional Hospital
Vice-Chief of Anesthesiology, Memorial Healthcare System

Doing More with Less: Safety Resource Management and Value-based Care in the Ambulatory Setting

Alberto Ardon, MD, MPH
Assistant Professor
Department of Anesthesiology
Medical Director, Acute Pain at UF Health North
Assistant Medical Director, Operating Room at UF Health North
University of Florida College of Medicine
Jacksonville, FL

Learning Objectives:

1. Describe the Potential Impact of Personnel Limitations on Analgesic Interventions.
2. Assess the Adequate Amount of Some Specific Resources Required for an Ambulatory Surgical Center.
3. Identify How Safety Preparedness Education may affect the Operating Room Environment.

 INDICATE SESSIONS ELIGIBLE FOR MOCA "PATIENT SAFETY" RECERTIFICATION

PROGRAM SCHEDULE continued

FRIDAY, JUNE 9, 2017

12:00 pm – 1:00 pm	INFORMATICS AND TECHNOLOGY PANEL MODERATOR: Luis Rodriguez, MD <i>Assistant Professor of Clinical Anesthesiology Division of Pediatric Anesthesiology Co-Director, Center for Informatics and Perioperative Management University of Miami Miller School of Medicine Miami, FL</i> During this panel, the participants will be able to learn of different ways to use technology to improve communications and awareness throughout your practice, taking into consideration all the pros/cons of mobile technology. We'll discuss on using your hospital's EMR and its features to implement ERAS protocols, learning from one implementation and trying to apply to multiple specialties. Finally, the participant will be able to learn and discuss the potential use of computer controlled infusions, its benefits and potential pitfalls. Innovating in Mobile Technology: Empowering the Healthcare/Anesthesia Provider Frank Gencorelli, MD <i>Assistant Professor of Clinical Anesthesiology Division of Congenital Cardiac Anesthesiology University of Miami Miller School of Medicine Miami, FL</i> ERAS & EHR: Potential Benefits and Lessons Learned Vicente Behrens, MD <i>Assistant Professor of Clinical Anesthesiology Florida International University/Miami Beach Anesthesiology Associates Miami Beach, FL</i> Computer Controlled Infusions in Anesthesiology Steven Boggs, MD, MBA <i>Professor of Anesthesiology and Vice Chair for Clinical and Research Affairs The University of Tennessee Health Science Center, College of Medicine Memphis, TN</i>	<i>Ponce De Leon 1-3</i>
1:00 pm – 2:00 pm	Lunch with the Exhibitors	<i>Ponce De Leon 4-6</i>
1:00 pm – 2:00 pm	Poster Session 2 MODERATORS: Thomas Furrhman, MD <i>Chief of Anesthesiology Bay Pines VA Healthcare System Bay Pines, FL</i> William Turnage, MD <i>Clinical Assistant Professor Anesthesiology University of Central Florida COM St. Augustine, FL</i>	<i>Ponce De Leon Foyer</i>

PROGRAM SCHEDULE continued

FRIDAY, JUNE 9, 2017

2:00 pm – 5:00 pm

Peri-Operative Point of Care Ultrasound Workshop

(Additional Fee Applies – See Registration Form)

Sean Kiley, MD

Assistant Professor

Department of Anesthesiology

University of Florida College of Medicine

Gainesville, FL

Linda Le-Wendling, MD

Associate Professor

Department of Anesthesiology

University of Florida College of Medicine

Gainesville, FL

Barys Ihnatsenka, MD

Assistant Professor

Department of Anesthesiology

University of Florida College of Medicine

Gainesville, FL

Rohit Patel, MD

Assistant Professor

Department of Anesthesiology and Emergency Medicine

University of Florida College of Medicine

Gainesville, FL

2:00 pm – 3:00 pm: Lectures

3:00 pm – 5:00 pm: Hands On Lab

This workshop is intended for practitioners of all skill levels who wish to improve their skills in Perioperative Point of Care.

Learning Objectives:

1. Understand the role of basic Point of Care Transthoracic Echocardiography in the Peri-Operative Management of the Surgical Patient.
2. Understand the role of Point of Care Lung Ultrasound in the Peri-Operative Management of the Surgical Patient.
3. Become acquainted with the use of Ultrasound of Spine for Epidural Access.
4. Understand the concept of Ultrasound use for evaluation of NPO status.

Magnolia Room - Lecture

Gulfstream Rooms - Lab

3:30 pm – 5:00 pm

Posters of Distinction 1

MODERATORS: Thomas Furhman, MD

Chief of Anesthesiology

Bay Pines VA Healthcare System

Bay Pines, FL

William Turnage, MD

Clinical Assistant Professor Anesthesiology

University of Central Florida COM

St. Augustine, FL

Ponce De Leon Foyer

5:00 pm – 6:30 pm

Welcome Reception in Exhibit Hall

Sponsored by **Nova Southeastern University**

Ponce De Leon 4-6

PROGRAM SCHEDULE continued

SATURDAY, JUNE 10, 2017

7:00 am – 8:00 am

"ALBERT EINSTEIN COLLEGE OF MEDICINE & STERLING OPS PRESENTATION" Live 3D Virtual Cadaver Demonstration: Managing Postsurgical Pain at the Source

Ponce Del Leon 1-3

This presentation will include a faculty presentation, questions and answers and a 3D virtual cadaver demonstration.

Learning Objectives:

1. Define the goals of enhanced recovery after surgery (ERAS).
2. Identify individual agents and practices that may be incorporated into ERAS programs and the evidence supporting them.
3. Outline a rational and practical strategy for implementation of an ERAS program.
4. Demonstrate techniques via 3D virtual cadaver for treating pain at its source.
5. Discuss how to create a seat at the table to drive enhanced recovery to opioid minimization pathways.

CME for this session will be provided by Albert Einstein/Sterling Ops. Claim instructions will for this session will be provided onsite.

Supported in part by an education grant from **Pacira Pharmaceuticals**

8:15 am – 12:30 pm: OPTION A

Ponce De Leon 1-3

8:15 am – 9:15 am

WRONG SIDED BLOCK PANEL

MODERATOR & SPEAKER: Leopoldo Rodriguez, MD, FAAP
*Medical Director and Chief of Anesthesiology Surgery Center of Aventura
Chair, Sheridan Healthcare Ambulatory Anesthesia Quality Sub-Committee
Aventura, FL*

Consequences of a Wrong Site Block

Steven Williams, MD
*Medical Director, Chief of Anesthesiology
Melbourne Surgery Center
Melbourne, FL*

Yury Zasimovich, MD
*Assistant Professor
Department of Anesthesiology
University of Florida College of Medicine
Gainesville, FL*

Despite the use of the Checklists a gap remains and Anesthesiologists continue to have "wrong site" and "wrong side blocks". The purpose of the panel and lectures is to expose the problem (wrong site and wrong side blocks) in the State of Florida.

There will be a lecture, presenting data from the Florida Board of Medicine, which will be followed by a workshop where two physician Anesthesiologists who have had wrong site or wrong side blocks, will speak on how the events happened, the process they had to go through with reporting, Board of Medicine hearings, consequences of the event; then they will overview how the error could have been prevented, including but not limited to clerical verification, site marking and time-out procedure.

Learning Objectives:

1. Describe how to Prevent Wrong Sided and Wrong Site Blocks in their Clinical Practice.
2. How to Create and Maintain a Culture of Safety in their Environment.

PROGRAM SCHEDULE continued

SATURDAY, JUNE 10, 2017

9:15 am – 10:15 am **TOOLS TO DRIVING HIGH RELIABILITY IN YOUR HOSPITAL – THE FINAL FRONTIER**

Building High Reliability throughout the Hospital

Relin Yang, MD
Chief of Anesthesiology
Orlando VA Medical Center
Orlando, FL

NORA Management

Steven Boggs, MD, MBA
Professor of Anesthesiology and Vice Chair for Clinical and Research Affairs
The University of Tennessee Health Science Center, College of Medicine
Memphis, TN

Learning Objectives:

1. Metrics used in NORA management.
2. Understand similarities and differences between NORA and operating room (OR) management.
3. Understand how efficiency may be perceived differently by different stakeholders in an operational unit.

Implementation of Operating Room Emergency Manuals, What is New?

Jeffery Huang, MD
Associate Professor
Anesthesiologist of Greater Orlando
Orlando, FL

10:15 am – 10:45 am **AM Break and Poster Session 3**

MODERATORS: Thomas Furfman, MD
Chief of Anesthesiology
Bay Pines VA Healthcare System
Bay Pines, FL

William Turnage, MD
Clinical Assistant Professor Anesthesiology
University of Central Florida COM
St. Augustine, FL

10:45 am – 11:45 am **Patient Satisfaction: Show me the Value**

Jay Mesrobian, MD
Regional Medical Director
Team Health Anesthesia
Board of Directors, American Society of Anesthesiologists
Milwaukee, WI

Learning Objectives:

1. Understand the history of patient satisfaction measurement in Anesthesia.
2. Identify current forces driving measurement of patient satisfaction in Anesthesia.
3. Understand why assessing the patient's perception of care delivers value to your providers, your patients, and your hospital.

11:45 am – 12:30 pm **Narcotic Addiction**

John Dombrowski, MD
CEO, The Washington Pain Center
Secretary, American Society of Anesthesiologists
Washington, DC

PROGRAM SCHEDULE continued

SATURDAY, JUNE 10, 2017

8:15 am – 12:30 pm: OPTION B

Magnolia Room

UPDATE IN PAIN MANAGEMENT

MODERATOR: Christian Gonzalez, MD

Clinical Director

Aventura Spine and Wellness Center

Aventura, FL

8:15 am – 9:15 am **Advanced NeuroInterventional Technologies for Chronic Pain**

9:15 am – 10:15 am **Medical Cannabis: Review of Literature and Treatment for the Patient Suffering from Pain**

Michelle Weiner, DO

Spine and Wellness Centers of America

Aventura, FL

Learning Objectives:

1. Endocannabinoid System Overview.
2. Therapeutic Uses of Medical Cannabis.
3. Florida Law Regarding Certification.

10:15 am – 10:45 am **AM Break**

10:45 am – 11:45 am **Changes in Healthcare and their Applications to the Pain Practitioner**

Christian Gonzalez, MD

Clinical Director

Aventura Spine and Wellness Center

Aventura, FL

11:45 am – 12:30 pm **Questions and Answer**

12:30 pm – 1:15 pm **US Healthcare State of the Union**

Ponce De Leon 1-3

Congressman Andy Harris, MD

US House of Representatives

Representing the 1st District of Maryland

Member, House Committee of Appropriations

Member, Sub-Committees

- Agriculture, Rural Development, Food and Drug Administration & Related Agencies
- Labor, Health and Human Services, Education & Related Agencies
- Homeland Security

The lecture will cover a range of health policy subjects that are being discussed at the federal Congressional level. These include: drug shortages, value-based health care delivery, medical research directions, and health care insurance models of reform.

Learning Objectives:

1. Identify the causes of drug shortages, including generic drug shortages.
2. List the causes of problems in the current individual health insurance marketplace.
3. Recognize the shortcomings of the current medical research models used in funding federally-sponsored research.

1:15 pm – 2:00 pm **Lunch with the Exhibitors**

POSTER SCHEDULE

FRIDAY, JUNE 9, 2017

LOCATION: Ponce de Leon Foyer

9:00 am – 9:30 am: Poster Session 1

P006 FEASIBILITY OF LIMITED TRANSTHORACIC ULTRASONOGRAPHY IN PERIOPERATIVE SETTING - *Amir Rowshanrad, MD*

P007 RAPID INTUBATION USING ALFENTANIL IN A PEDIATRIC PATIENT WITH A MITOCHONDRIAL DISORDER - *Wendy L. Leavitt, MD*

P008 THORACIC PARAVERTEBRAL DEPTH MEASUREMENTS VIA CT - *Ashley Screws, MD*

P009 TRANSESOPHAGEAL FINDING OF ECHO DENSITY IN SINUS OF VALSALVA CHANGES SURGICAL PROCEDURE - *David M. Corda, MD*

P010 THE EFFECT OF TABLET COMPUTERS ON NEED FOR MEDICAL ANXIOLYSIS IN CHILDREN IN AN AMBULATORY SURGICAL CENTER AND FACILITY EFFICIENCY - *Shazia Mohammad, MD*

1:00 pm – 2:00 pm: Poster Session 2

P011 RAPID FLUID INFUSION AND POTENTIAL RIGHT HEART OVERLOAD: MODELING THE RIGHT VENTRICLE - *Christopher R. Giordano, MD*

P012 CASE REPORT: NEUROPATHIC PAIN STATUS POST FASCIA ILIACA CATHETER PLACEMENT FOR TOTAL HIP ARTHROPLASTY. - *Janaid Sheikh, DO*

P013 WHEN THE AIRWAY FAILS, GO IV - *Caryl F. Bailey, MD*

P014 PREVENTING POST OPERATIVE ARTERIAL OXYGEN DESATURATIONS USING PULSE OXIMETRY WITH AUTOMATED VERBAL PROMPTS - *Joseph LaGrew, MD*

P015 NEUROTOXIC EFFECTS OF GENERAL ANESTHESIA ON THE VERY YOUNG - *Aarthi Kalaichezhian, MS*

P016 PRESSURE'S ON: DIAGNOSIS & MANAGEMENT OF TENSION PNEUMOTHORAX AFTER COMPLEX GASTRIC CANCER RESECTION - *Gregory J. Mickus, MD*

P017 ANESTHETIC MANAGEMENT OF CAROTID BODY TUMOR EXCISION IN AN 8 YEAR OLD PATIENT - *David S. Haverman, MD, MPH*

P018 INNOVATION IN ATRIAL FIBRILLATION ABLATION: THE "CONVERGENT PROCEDURE" - *Shashank S. Shettar, MBBS, MD*

P019 ASSOCIATION OF INTRAOPERATIVE HYPOTENSION AND VASOPRESSOR USE WITH COMPLICATIONS OF FREE TISSUE TRANSFER SURGERY - *Roxanna Rasekhi, DO*

P020 PARADOXICAL VOCAL CORD MOTION IN A CHILD WITH VACTERL ASSOCIATION - *Yu-ning Hsu, MD*

P021 OBSTETRICS RAPID RESPONSE: POST-OPERATIVE MAGNESIUM SULFATE HEMODYNAMIC COMPROMISE - *Kristina T. Gemayel, MS, OMSIII*

P022 WILLIAMS SYNDROME-BE AWARE AND BEWARE - *Spencer B. Hyde, DO*

3:30 pm – 5:00 pm: Poster of Distinction Session 1

P001 REDUCED POST-OPERATIVE OPIOID REQUIREMENT AFTER OPIOID-FREE ANESTHESIA - *Enrico M. Camporesi, MD*

P002 THE EFFICACY OF TRANSVERSUS ABDOMINIS PLANE BLOCK FOR ABDOMINAL HYSTERECTOMY POST-OPERATIVE ANALGESIA - *Christina Dai*

P003 ECONOMIC BENEFIT, LABOR DURATION, AND RISK FACTORS ASSOCIATED WITH TRADITIONAL EPIDURALS COMPARED WITH WALKING COMBINED-SPINAL EPIDURAL ANALGESIA - *Jeffrey Chen, MS*

POSTER SCHEDULE continued

SATURDAY, JUNE 10, 2017

LOCATION: Ponce de Leon Foyer

10:15 am – 10:45 am: Poster Session 3

- P023** ANESTHESIA-LED CURRICULUM FOR PREOPERATIVE MEDICAL OPTIMIZATION - *Ryan P. McCafferty, DO*
- P024** TIMING OF EPIDURAL CATHETER WITHDRAWAL IN AN ANTICOAGULATED PATIENT: HOW LONG IS TOO LONG? - *Michelle Lipton, MD*
- P025** PERCUSSION PACING REVISITED - *Jordan Miller, MD*
- P026** ANESTHETIC MANAGEMENT OF THE PEDIATRIC PATIENT WITH SEVERE HEREDITARY LYMPHEDEMA AND KNOWN DIFFICULT INTUBATION - *Benjamin Schumacher, DO*
- P027** GRADING INTRAOPERATIVE PHYSIOLOGICAL "INSTABILITY" USING AN EXPERT REVIEW SYSTEM - *Chris Giordano, MD*
- P028** REPERFUSION SYNDROME AFTER PULMONARY THROMBOENDARTERECTOMY CAUSING HYPOXEMIA - *George Soliman, MD*
- P029** WHY NOT PLACE IT RIGHT THE FIRST TIME? USE OF THE ULTRASOUND FOR ARTERIAL LINE PLACEMENT. - *Ezekiel J. Anderson, DO*
- P030** ANESTHESIA FOR CAESAREAN SECTION IN A MORBID OBESE PATIENT WITH DWARFISM. - *Alfredo E. Burgos Briceno, MD*

1:15 pm – 2:00 pm: Poster of Distinction Session 2

- P004** PARAVERTEBRAL BLOCKS PROVIDE DECREASED OPIOID USAGE IN PATIENTS UNDERGOING INGUINAL HERNIA REPAIR - *Song Hyon Pak, MD*
- P005** THE CHRONIC EFFECTS OF NICOTINE ON PAIN SENSITIVITIES AND ON NEUROPATHIC PAIN IN ADULTS RATS - *Ana Mavarez, MD*

1:15 pm – 2:00 pm: Poster Session 4

- P031** CONCURRENT INTRAOPERATIVE UTERINE RUPTURE AND PLACENTA ACCRETA: DO PREOPERATIVE CHRONIC HYPERTENSION, PRETERM PREMATURE RUPTURE OF MEMBRANES, CHORIOAMNIONITIS AND PLACENTAL ABRUPTION PROVIDE WARNING TO THIS RARE OCCURRENCE? - *M. Anthony Cometa, MD*
- P032** TWO INFANTS WITH PRESUMED ZIKA CONGENITAL SYNDROME PRESENTING FOR EXAM UNDER GENERAL ANESTHESIA IN A RESOURCE LIMITED SETTING - *Michael T. Kuntz, MD*
- P033** TAVR: SUBVALVULAR SURPRISE - *Joseph E. Lagrew, MD*
- P034** DOES SUGAMMADEX REDUCE CRITICAL RESPIRATORY EVENTS IN MORBIDLY OBESE PATIENTS AFTER BARIATRIC SURGERY: A COMPARISON OF 2 CONSECUTIVE COHORTS - *Matt Barros*
- P036** MINI-AORTIC VALVE REPLACEMENT: A STITCH IN TIME - *Oscar Alam Mendez, MD*
- P037** TREATMENT OF SEVERE LACTIC ACIDOSIS WITH THIAMINE IN A CADAVERIC KIDNEY TRANSPLANT RECIPIENT - *Sina Ghaffaripour*
- P038** SIMULATION-BASED LEARNING IMPROVES ANESTHESIOLOGY RESIDENT CONFIDENCE IN CRITICAL SKILLS: A FLIPPED CLASSROOM APPROACH - *Lucas Bannister, MD*
- P039** CARDIOVASCULAR COLLAPSE DURING CESAREAN DELIVERY - WHEN TOO MUCH AIR BECOMES A PROBLEM - *Juan Mora, MD*
- P040** PARADOXICAL HEMODYNAMICS DURING A MYCOTIC AORTIC ABDOMINAL ANEURYSM REPAIR. - *Juan Mora, MD*
- P041** POST OPERATIVE VISUAL LOSS: CAN WE DO ANYTHING ABOUT IT? - *Scott Wasilko*
- P042** STROKE ALERT AFTER INADVERTENT PLACEMENT OF THORACIC SUBDURAL CATHETER - *Robert Stoker*
- P043** POSSIBILITY OF LED OPERATING ROOM SURGICAL LIGHTING USED AS ALTERNATIVE FOR RADIANT WARMING MEASURE FOR NEONATES - *Frank Wang, MD*

www.cheetah-medical.com

Cheetah Medical's hemodynamic monitoring systems are helping clinicians with the challenges of volume management in a broad range of clinical settings. The STARLING™ SV monitor delivers continuous, 100% non-invasive hemodynamic and cardiac output monitoring with accuracy equivalent to traditional & more invasive methods. Additionally, Cheetah systems can be used on a broad range of patients without the limitations found in other technologies. Ease of use make the Cheetah's monitors ideal for determination of fluid responsiveness and perfusion optimization.
