

**Aaron Muncey, MD**  
**District Director 3 West Candidate**  
**ASA Delegate 3 West**

Thank you for considering me for these positions. I am an academic anesthesiologist with a strong passion for physician-led anesthesia care, and I enjoy engaging with politicians and members of the public to help explain what we do and why physician-led care is essential for patient safety. I like to share anecdotes of the many real OR situations I have been in with nurse anesthetists in which true patient harm would have occurred without my oversight. I also care about other important issues in our specialty which include how we are treated and valued by insurance companies and Medicare/Medicaid. I have experience of being a district director for the 4 East district in the past, and I now reside in Tampa and work at Moffitt Cancer Center. Thanks again for your consideration.
