

Luis I. Rodriguez, MD, FASA

Assistant Treasurer Candidate

District Director South Candidate

I started with FSA in the Abstract committee for the Annual meeting, from there I've been the Chair of the Program Committee since 2018. Last year, after cancelling the meeting, I was determined to keep our members engaged, so I organized a 6 series webinar discussing the business of medicine. This year we're working in improving our members participation in the committees by creating a virtual FSA annual meeting, where each month, a committee presents high yield topics pertinent to their area of expertise. All this experience, has helped me in my role as District director, contacting our members and showing them the value of our society. I have helped the pediatric committee become a formal committee and launched the first webinar series on pediatric anesthesia. I was elected to represent the FSA at the ASA House of Delegate, and with the other Delegates, will continue to work in representing our society at the national level. Finally, I have been working in the legislative area, participating as Doctor of the Day, and meeting with our senators and representatives about the bills the FSA is interested in. Looking forward to continue serving the Society in all future challenges.
