

**Lydia Jorge-Reynolds, MD**  
**District Director South Candidate**  
**ASA Alternate Delegate Candidate**

Greetings Board of Directors for the Florida Society of Anesthesiology, I am Lydia Jorge-Reynolds, MD, a practicing pediatric anesthesiologist at the University of Miami/Jackson Memorial Hospital Healthcare system. Practicing anesthesiology for over 14 years in South Florida has provided me the experience of teaching resident physicians, fellows, as well as nurse anesthetists and know the values of collaborating as a physician led team practice model. My professional growth has led me to hold numerous leadership positions as I am currently the Program Director of our Pediatric anesthesia Fellowship training Program and Director of Pediatric Transplant. I was elected as a member of the UMMG Leadership Council in 2019 as a representative of the Department of Anesthesia, and I am a member of the Pediatric Anesthesia Program Directors Association.

As an active member of the FSA, I have presented alongside my anesthesia residents and fellows numerous poster presentations, given lectures at our annual meeting, and participated in the FSA webinar series The Business of Medicine as an invited speaker. I wish to continue to grow as a physician anesthesiologist and patient advocate within our society and our community. As district director, I will continue to promote the goals of the FSA by advocating for its current members and engaging future members for the continued growth of this significant professional organization.
